

Maria Santos

Junior Automation Developer · Quezon City, Philippines · maria.santos@example.com · (Sample resume for demo purposes)

SUMMARY

Automation developer with about 1.5 years of experience building workflow automations and API integrations for operations teams. Comfortable with Python, n8n, and SQL, and recently started integrating LLMs into business workflows.

EXPERIENCE

Automation Developer — BrightLane Logistics Inc. (Feb 2025 – Present)

- Built 14 n8n workflows that sync orders between Shopify, Google Sheets, and the company's MySQL database, cutting manual encoding by about 20 hours per week.
- Wrote Python scripts to clean and reconcile daily delivery reports from three courier APIs.
- Created a Gemini-powered email classifier that routes customer inquiries to the right team.
- Documented workflows and trained 6 operations staff to monitor and rerun failed jobs.

Operations Automation Intern — Northpoint BPO Solutions (Jun 2024 – Dec 2024)

- Automated weekly attendance and productivity reports using Google Apps Script and Sheets.
- Connected the ticketing system to Slack through REST API webhooks for real-time alerts.

SKILLS

Automation: n8n, Zapier, Google Apps Script, webhooks **Programming:** Python, JavaScript, SQL (MySQL)

Integrations: REST APIs, JSON, Shopify, Slack, Google Workspace **AI:** Gemini API, prompt design

Tools: Git, Postman, basic Docker

EDUCATION

BS Information Technology — Polytechnic University of the Philippines (2020 – 2024)

CERTIFICATIONS

- Google IT Automation with Python Professional Certificate (2024)
